Sports Center in Vernon Heights Launches Busy Summer Schedule.

Marion's newest Y M C A sports center located on Vernon Heights boulevard is bustling with activity these days—members indulging in half a dozen outdoor sports with particular emphasis on tennis and archery.

It is the second year for the tennis program. More than 100 members comprise the bevy of court enthusiasts who during the summer months will participate in inter city matches and tournament play. Three courts are at their disposal and special sessions for the instruction of beginners have been arranged by Bob Hicks member of the Y physical education staff.

Delay in opening the outdoor schedule because of rainy weather has been offset by an increased tempo of activity during the last several weeks. The courts, constructed last year, are in excellent shape. They were graded leveled and rolled early in the spring and are much improved over last year.

Called Healthful Sport

The net sport which finds followers among young and old alike is a particularly healthful outdoor recreation, in the opinion of Bob Hicks who has been following the game since he was a youngster. It is especially good as a summertime weight-reducing exercise, which he believes is one of the major reasons it has found so much favor among feminine players the world over.

As part of this summer's program special exhibition matches are planned. Tentative arrangements call for the visit here of several Ohio net stars, including Bobby Faught of Grandview, who last year won the state junior and men's crowns. Y officials hope to bring other outstanding Ohio netters here to show their wares.

"The courts are open from dawn to dusk for the convenience of members. Special hours are reserved for instruction but because there are three courts it seldom is necessary to make reservations. The present schedule for instructions given by Mr Hicks is Monday and Wednesday 9 to 10 for boys 10 to 11 for girls 5 to 6 for employed women Tuesday and Thursday 9 to 10 for non employed women and 5 30 to 6 for men.

SENATE GIVEN KNOX, STIMSON NOMINATIONS

Navy and War Posts Go to Republicans in Roosevelt Coalition Move

By The Associated Press

WASHINGTON June 20—President Roosevelt took steps to form a coalition cabinet today by submitting to the senate the nominations of Col Frank Knox to be secretary of the navy and Henry L. Stimson to be secretary of war.

The war vacancy was created by the resignation of Secretary Woodring announced suddenly today by the White House. In a letter to Woodring expressing real personal regret at accepting the resignation Mr Roosevelt wrote that the armament program had made great progress during Woodring's years in office.

It is of course a defensive program he took occasion to say not aimed at intervention in world affairs which do not concern the American hemisphere."

Knox publisher of the Chicago Daily News was Republican vice presidential candidate in 1936. Stimson was secretary of state in the Hoover administration and secretary of war under President Taft.

The submission of the nominations was accompanied by a White House announcement — without amplification — that Secretary Woodring had resigned his cabinet portfolio effective on senate confirmation of the nomination of his successor.

White House officials did say that Woodring's letter of resignation was "so personal that the usual custom would not be followed and it would not be made public.

Knox will succeed Charles Edison whose resignation as navy secretary becomes effective June 24. Edison quit the cabinet job to run for governor of New Jersey on the Democratic slate.

No Explanation Given

The White House made no announcement regarding the two men selected from Republican ranks for cabinet positions other than to make public the fact that their names were sent to the senate.

The question of a coalition cabinet had been debated almost since the beginning of the present crisis in European affairs.

The discussion reached a peak of tension when Knox and Alf M Landon the 1936 Republican presidential nominee visited the White House a few weeks ago. Subsequently White House officials disavowed any coalition intentions and the subject faded.

Today's nominations therefore coming only four days before the opening of the Republican national convention in Philadelphia

Summer Is Due Friday Despite Spell of Cold

Shivering Marionites hurrying to keep warm this morning took heart when they looked at the calendar and found that Friday is first day of summer.

The summer solstice is due at 8 37 Friday morning, according to the World Almanac computation of the seasons.

Continued cool weather and fair skies are forecast for tonight by the federal weather bureau and clear weather is promised for Friday.

The mercury plunged 29 degrees last night, to a minimum reading of 48. Last night's was the lowest temperature of the month. The high yesterday was 77.

A year ago today the maximum was 85 and the minimum was 69.

Light snow fell early today at Rock City, N Y, in the Allegheny mountain foothills, The Associated Press reported. A minimum temperature of 24 degrees was recorded.

DEFENSE PLAN FIGHT DROPPED

Republican Leaders Abandon Plan for Bricker To Set Up Commission

By The Associated Press

COLUMBUS O June 20 Republican leaders facing stern intra party opposition gave up today all hope of setting up an Ohio defense commission and moved to wind up immediately the special session of the legislature.

The senate completed action on the last two remaining bills including one to hike maximum old age pension allotments from $30 to $40.

The defense commission resolution submitted late yesterday in the house was killed by a voice vote late last night but its backers contending it bore the approval of Gov John W Bricker had planned to seek reconsideration.

It proposed a survey and coordination of defensive facilities and establishment of schools for training a civilian defense force. Several Republican members saw in it a war-like gesture.

Akron Man Objects

Rep Herman E Werner (R-Summit), leading the opposition asserted:

I don't like this flag waving business when we have adequate provisions on the statute books for accomplishing the same purpose.

The house completed enactment of legislation empowering corporations to manufacture any implements of war. Sponsors said the bill was important to the national preparedness program because corporate charters now limit the products which may be turned out by manufacturers.

Rep Harry J Dworkin (D-Cuyahoga) termed it "fraudulent legislation" designed to protect corporations which he declared had already gone beyond their charters.

Three days after the special session was convened only two bills awaited senate approval before adjournment, which was [illegible]

NAZIS SEND 100 PLANES TO RAID BRITISH TOWNS

Bombers Range Over England, Scotland and Wales in Night.

By The Associated Press

LONDON June 20—A Nazi air fleet authoritatively put at considerably more than 100 planes dumped hundreds of bombs on England Scotland and Wales last night and early today in the most extensive air raid of the war on the United kingdom.

At least six civilians were killed and some sixty injured the government announced. It said the raid was [illegible] and considering the number of bombs dropped the reported damage was slight.

The Nazis apparently changed the [illegible] of attack and a [illegible] the industrial areas [illegible] Tuesday night when 12 were killed.

British airmen exacted their toll of the raiders—downing [illegible] bombers while other [illegible] were, the government reported, wrecking hangars and [illegible] aircraft on the ground in German-occupied airports in France.

Anti-aircraft fire accounted for another Nazi raider while several others were badly damaged.

Meanwhile more help has arrived for Britain from Australia and New Zealand. Thousands of fighting Anzacs landed from world famous liners at a British port shouting for a chance at Jerry.

The casualties of the second big air raid were announced after a check by the air ministry and the ministry of home security. The report also mentioned damage in three towns.

This attack followed by just one day raids which although less extensive took a toll of 12 killed and 30 injured.

The attacks began shortly before midnight (6 p m Marion time) and lasted until just before dawn. At some single points the alarm lasted for hours. They ranged from the south coast up the east coast to Scotland across to northwest England and then southward on the west coast to Wales.

As was the case [illegible] while the German raiders were raiding the British Isles, British bombers were at work over Germany. The air ministry announced today royal air force bombers had attacked the Ruhr, the Rhineland and west Germany and also German aircraft grounded at Amiens and Rouen in German-occupied France.

The raids provided a realistic prelude to a secret session of parliament this afternoon on the subject of home defense. Prime Minister Winston Churchill and War Ministery Anthony Eden were expected to speak.

He is the son of Mr. and Mrs. John Shifflet. He is expected to be released from the hospital some time this afternoon.

End Is Predicted As Delegates Set Axis Peace Terms

By The Associated Press

HOSTILITIES between France and the axis armies are expected to cease Friday—or Saturday at the latest—the official Italian news agency reported today asserting that French plenipotentiaries have started back to Bordeaux with the terms dictated by Hitler and Mussolini.

The place of meeting between the French envoys, who arrived in a snow white plane somewhere in German-occupied northern France was not given.

News Transmission Poor

Berlin blaming the difficulties of news' transmission via Spain, said a French government communication naming France's four peace plenipotentiaries did not reach the German government until 1 a m today (6 p m Marion time Wednesday.)

"It could be transmitted to the fuehrer only at 4 a m" the broadcast said.

The high command thereupon gave the necessary instructions immediately and made preparations for receiving the French armistice delegation."

Hitler's high command meanwhile announced the fall of Lyon France's third largest city, 200 miles north of Marseille and the capture of more than 200 000 prisoners, including General Altmeyer, commander of the 10th French army.

French Flee To Switzerland

Fifty thousand French Poilus from the eastern Maginot line surrendered their arms this morning to Swiss soldiers and poured across the Swiss frontier.

Waves of German planes, attacking from midnight to dawn, rained new death and destruction on England in the opening phase of the "battle for Britain."

But the German radio, in a cryptic report, declared that "members of the French government are not at all agreed on the question of laying down arms"—lending credence to unconfirmed reports that France has learned the gist of the axis terms, found them too harsh for the nation's honor, and resolved to fight on.

The report said President Lebrun and members of his government were ready to flee to Algiers North Africa to carry on the war from there even if German troops capture all France.

The French admitted Nazi troops had occupied Lyon rich industrial city 200 miles south of Paris but dispatches from Geneva simultaneously gave the first hint that the German mechanized machine has begun to wear out and falter.

Refugees reaching Geneva from the battle zone told of seeing quantities of abandoned German tanks armored cars and motorcycles along the main highways.

Hunt Gas Supplies

Nazi motorcycle troops were also reported scouring the countryside in search of needed gasoline supplies.

Nevertheless under dwindling French resistance Hitler's armies swept further down into France the high command announced.

Brest French Atlantic port below Cherbourg, where the American expeditionary force landed tens of thousand of men in 1917-18, fell to the Nazi columns, the official communique said.

Other German troops racing down toward Bordeaux crossed the lower Loire river—France's intended new line of defense if the fight goes on—between Nantes and Tour.

While more than 100 German warplanes bombed England, others raided the refugee-swollen temporary capital of Bordeaux four times during the night, killing or wounding [illegible] persons.

Six civilians were killed and 60 injured in the widespread bombing over England.

[illegible]

reported in flight to North Africa. Some of them were forced down at Spanish ports and island before reaching their destination.

Reports reaching Switzerland, however stated French planes and troops from North Africa had crossed the Mediterranean under naval convoy to help check the German drive in southeastern France.

The French said their troops

Community Drive On at Ashley To Keep Out of War

Women Start Letter-Writing Campaign for Defense, Peace.

Special to The Star

ASHLEY O June 20—Ashley is in the midst of a community-wide movement to let its congressman and Ohio's senators know that its residents are against any U S participation in overseas conflict but are wholeheartedly in accord with a full-strength defense program for this country.

A group of women of the community, most of them mothers and all of them church workers, started the movement this week and by next Sunday expect to have had more than 100 letters go out from the community to Congressman Harry McGregor of Newcomerstown and Senators Robert Taft and Vic Donahey.

A spokesman for the movement, believed to be one of the first if not the first community project of its kind launched in this section of the state, said mothers [illegible] that the people of the United States let their congressmen and senators know how they feel about this country's stand in the present international situation.

Harpster Man Leads Shoot

C. H. Sears Ties Pro as 35 Gunners Fire Away on Marion Club's Grounds.

Thirty-five scattergun enthusiasts from northern and central Ohio were on hand for yesterday's registered trapshoot at the Marion Gun club grounds on the Edison pike.

C. H. Sears of Harpster paced the field. He tied Arthur Cuscaden, professional, from Tampa, Fla., in the regulation 100-target event, both breaking 98 birds. Mr. Sears topped the list in the handicap by blasting 46 of 50 birds from the 22-yard line.

John Hinklin, veteran Marion gunner, was third in the 100 target competition, breaking 96. Second spot in the handicap competition went to L. R. Trees of Plain City, who smashed 47 of 50 clays from the 19-yard stripe.

Third in Series

The shoot was the third in a series of five registered events scheduled by the Marion club. Others will be held July 4 and Aug. 7. Scores in registered events are forwarded to the American Trapshooting association at Vandalia, where they are compiled to determine handicap ratings for the Grand American trials late in August.

Yesterday's competition was marred only by a strong cross wind, which made the going tougher for the marksmen. Many of them, however, cracked the clays consistently in spite of the added handicap.

Complete results follow:

WHEAT PRICES DRIFT IN NARROW RANGE

CHICAGO, June 20 — Wheat prices fluctuated within a range of more than a cent a bushel today, alternating above and below previous closing levels and finishing at small net losses for the session.

Less favorable crop reports caused moderate buying around mid-session but the advance could not be held and most traders were inclined to stay out of the market as much as possible because of uncertainty regarding the situation abroad.

Wheat closed unchanged to ½ cent lower compared with yesterday's finish, July 78¼-⅞, September 78½-¾; corn unchanged to ¼ off, July 61⅞-62, September 59⅞; oats ⅜ lower to ¼ higher.

Parshall Draws Penalty For Harsh Talk at Marion Races

An incident which occurred during the Marion meeting of the Ohio Short Ship harness racing has put Dr. Hugh M. Parshall of Urbana, leading reinsman and trainer, on the sidelines for the duration of the current Canton meeting, it was reported today by The Associated Press.

The Urbana harness racing king lost his driving rights until June 22 for criticizing judges at the circuit session here last week. After being fined $10 for beating the barrier during an event here Parshall allegedly hurled abuse on the judges. The incident got into the hands of the United States Trotting association and Parshall's suspension was ordered by Frank Wiswall of Albany, N. Y., president of the organization.

Joseph McGraw, presiding judge for the circuit, announced the suspension at Canton last night. Parshall was to have driven Peter Astra, 1939 [illegible] winner, in a free-for-all trot tonight. The event may be held over until Friday night in the hope that officials may relent and permit Parshall to drive then, it was reported from Canton.

Last night's circuit opening at Canton was marked by a new track record and bettering of a world mark.

Little Pat, bay gelding star of the [illegible] farm, won the $1,000 free-for-all pace in straight heats for Driver Charley Lacey. Little Pat clipped one-fourth of a second from its 1939 mark to take the second heat in 2:03.

[illegible] the 58th mile dash won by Little Pat in 2:05 or less, bettering the [illegible] record established by Ray Henley, officials said.

PROSPECT RAILWAY WRECKAGE CLEARED

Traffic Completely Restored Over C. & O. Tracks.

Both tracks of the Chesapeake & Ohio railroad have been cleared at the scene of Tuesday night's 20-car pileup near Prospect, company officials reported today.

However, wrecking crews from Toledo and Columbus are still busy cleaning up debris at the side of the lines. It is estimated two days or more will be needed to get the scene completely cleared. A section of track badly damaged will have to be rebuilt [illegible]

The workers thus far have found no evidence of anyone having been injured in the derailment. They said it is possible some train rider might be buried under the remaining debris, but that it is not likely.

No official estimate of the damage has been made yet. The unofficial estimate was from $25,000 to $35,000.

STOCK LEADERS IN SLOW DAY

Market Moves in Irregular Route; Domestic Business Bright Spot.

By The Associated Press

NEW YORK, June 20—Stock market leaders idled in an irregular area today as traders awaited fresh inspiration from European war and peace bulletins.

The domestic business outlook still was the main buoying speculative influence, brokers said.

Bonds were uneven, with foreign issues off and corporation loans steady. Commodities were mixed. "Free" sterling again dipped.

Down fractions to a point or so most of the time were U. S. Steel, Bethlehem, Chrysler, General Motors, U. S. Rubber, Douglas Aircraft, Sperry, United Aircraft, Glenn Martin, American Smelting, Standard Oil of N. J. and Texas Corp.

Making progress were Consolidated Edison, North American, American Water Works, Public Service of N. J., N. Y. Central and Westinghouse.

Steels and coppers had to contend with possibilities that French collapse might hit orders from abroad.

Large Part of Europe Must Find Way To Fit Into Nazi Economic Picture

BY ALVIN J STEINKOPF

BERLIN—A great part of Europe—eight formerly independent nations and now practically France—must find a place for itself in Germany's [illegible] economic and industrial scheme as a result of German expansion and war victories.

For the nations already absorbed world trade has disappeared and business is upside down as it tries to adjust itself to the German system of barter and planned economy.

The [illegible] Germany [illegible] are Austria, Czecho-Slovakia, Bohemia, Moravia, Poland, Denmark, Norway, Luxembourg, The Netherlands and Belgium.

Gone are the days of hands roughened and reddened and fingernails nicked and broken from scouring flame-smoked and smudged utensils and cleaning soot-blackened curtains and walls! Gone too are basting, oven-peeking and watching and, largely, tending and stirring—those age-old torrid time-and-step taking energy sappers which help make you old before your time!

Into a bright fresh clean room you are proud to show your kitchen is transformed! And cool too! No heat rushes out—wasted! Instead it is controlled—conducted directly into surface utensils and trapped in air-tight oven.

Ohio Lawyer Bears Heavy Load in Planning Republican Convention

By The Associated Press

PHILADELPHIA June 20 — A stocky Ohio Lawyer has been toiling here for two months to care for 125 000 strangers expected for the Republican national convention opening Monday

A mass of detail ranging from seating 13 100 Republicans in convention hall to supplying them with 10 000 gallons of bottled spring water is the task of James L E Jappe executive secretary of the committee on arrangements.

Jappe 49-year-old Clevelander with thinning black hair and rimless spectacles takes the job with a grin—even the kicks A behind-the-scenes executive he neither seeks nor gets much credit All he wants as a reward is a smooth running convention He gets an expense account, but no salary

Old Story To Jimmy

Handling National conventions is an old story to Jimmy Jappe so old that he stood his ground calmly when the hot dog industry barked loud protests because he ruled against the sale of frankfurters on the convention floor and in the corridors

Meat packers contended the ban was not in line with the party's announced intention to rededicate itself to American principles at the ballot box [illegible] Hot dogs, they declared are as American as the liberty bell

Jappe replied that there would be no barkers in convention hall Hot dogs will be available at the restaurant there he said and at authorized concessions in the [illegible]

The nature of the wieners was a minor worry for Jappe who has been connected with conventions since 1912 as press agent and Republican worker

He handled arrangements for the 1924 and 1936 G. O. P. conventions in Cleveland Since the 1924 meeting facilities for radio and news reels have been his task and this time he's arranged for television broadcasts

Signs In Green Ink

Republican James Jappe, like Democrat James A Farley signs his letters in green ink

Started using it long before Farley he says when I was a press agent for Cleveland amusement parks and the old Euclid Avenue opera house

A lawyer Jappe's one political office has been as Cuyahoga county [illegible] man [illegible] since 1922 He attended Western Reserve university for two years before going into publicity work he didn't like and left ten years ago to start his practice after night school [illegible]

Jappe went to the Philippines for eight months in 1926 as secretary to Carmi Thompson chairman of a presidential commission investigating demands for island independence Thompson previously was secretary to President Taft, treasurer of the United States and assistant secretary of the interior

He's coming to the convention this month as an Ohio delegate and he [illegible] hopes he and 999 other delegates will find everything shipshape

The Japanese government has restricted [illegible] electric [illegible] [illegible] light and advertising [illegible] of [illegible] use of coal are [illegible] for steam power

tugged at Derek with pretty hands, pulling him to- a laughing group of young people. It was just too marvelous and too terribly exciting, she said. None of them had understood or appreciated his great gift, but now they were waiting, anxious to worship at his shrine and willing to offer libations of champagne.

"Hold on, Lennie," he halted her. "I want you to meet a very special friend of mine, Jan Merriner."

Lenore's long violet eyes took swift shrewd measurement of the other girl from under dusky satin lids. "So nice," she murmured. "Where have you been keeping her, Ricky?"

"She just arrived from the coast," he explained. "She's a friend from my bus-driving days, also she's an up and coming young artist who just recently won recognition in a national magazine for her superb drawings of cats.'

"Cats!" Lenore shuddered. "I can't bear the slinking, furry things! Oh, do come along, Ricky, everyone is waiting. You must lunch with me one day, Miss—oh, dear, I'm just no good at names!"

"Goodby,' Jan said quickly, seeing Doctor Murray coming toward her, concern sobering his merry smile as he quickly estimated the situation. Before Derek could restrain her, she slipped away and hurried the little doctor to the waiting limousine.

"I," insisted the good doctor after glimpsing her hurt, forlorn eyes, "want to 'make a night of it' as you say in America. The gayest of night clubs and," he chuckled, "the hottest of hot spots!"

'Cocktail Ingredients'

Temporarily distracted, Jan dined and danced and enjoyed her sortie into New York's night life with the exuberant doctor. The clock in the hotel lobby said three when she went up to her room in the hotel, anticipating a good, long, uninterrupted cry. She closed and locked the door and leaned against it.

"Ricky!" she exploded. "Lennie! They sound like cocktail ingredients! Take a jigger of Ricky and two dashes of Lennie, some cracked ice and you have—a headache!"

She pulled off her dress, jumped into the middle of the bed and buried her head in the middle of a fat, white pillow and angrily sobbed all the nonsense out of her head, but not out of her heart—if it was nonsense, and she hoped it was, that her heart whispered. For it told her, despite all conclusions and common sensibilities, that she loved Derek Knowles, had loved him since the first time he kissed her, and whether or no, she would keep right on loving him because she was that kind of person and there was nothing she could do about it.

"There is!" she denied hotly. "I can refuse to see him again. I can go home the minute Lance is able to travel and be an old maid and putter with my paints and my cat—but I don't want to!"

The telephone rang at ten the next morning. "Why did you run out on me last night?" Derek demanded crossly. "And without telling me where you were stopping, why you were here, and so on and so on."

"If you had been at all interested you could have written long ago'" she snapped, and immediately wished she could call back the words.

"You know why I didn't write," he howled. "You told me I was no good. You said I was shiftless and cowardly and limping around with wounded ego! You bawled the devil out of me and told me I didn't fit into your world and now you ask why I didn't write! If women aren't the most inconsistent! For goodness' sake tell me why you're here before I start frothing at the mouth."

"Why should I satisfy any curiosity of yours?" she demanded. "Did you ever tell me anything No! I had to learn who you were and everything else from Rose and Johnny! But I won't be as mean as you were. I brought Lance here to Doctor Murray and he's going to operate tomorrow. Rose married Johnny, but she's still making trouble for Lance and Norma—and I don't want to see you or your gooey, gushy old Lennie! If she's the best thing that ever happened to you, you'd better hang on to her." She banged up the receiver and glared at a picture of Notre Dame Cathedral on the wall.

Ten seconds later the phone rang again, but she scooted down into the bed and pulled the covers over her ears. When it stopped ringing she called the desk clerk, informing him she would not accept any more calls from Derek Knowles.

To be continued.

KENTON CHURCH PLANS TO MARK ANNIVERSARY

Special to The Star

KENTON, June 19 — The First Baptist church of Kenton today planned a five-session celebration of its ninetieth anniversary. The church, founded in 1850, was rebuilt in 1926 after the old structure collapsed, and of that building debt only $450 remains to be paid, Rev. Robert Hughes, present pastor, said.

Speakers will be Rev. H. C. Poorman of Piqua, Thursday evening; Rev. A. W. Snow of Tippecanoe City, O., pastor of the local church when the present church was built, Friday evening; Dr. Bowler of Granville, state and national Baptist church leader, Sunday morning, Dr. S. P. Stoddart of Lima and Dr. Wood of Marion, Sunday afternoon; and Prof. S. P. Stoner of Lima, Sunday evening.

A reflector shaped like an inverted staircase has been invented to be placed behind the light bulb in an automobile headlight to direct the glaring rays of light downward.

too weak to defend its vital interests. The reasoning is [illegible]ous. All are agreed that we must make ourselves strong enough to protect our vital interests in the future even though a totalitarian Europe allied with Japan has a crushing naval superiority in the world. But today when the Allied sea power still stands, today when the United States is still the second greatest naval power in the world, we are told that this nation is too weak to move quickly and decisively to safeguard its vital interests. But if it is too late to move to support the British resistance and to make as sure as we can that if the British are defeated in Europe the fleet will not fall into Hitler's hands then it will be much more too late to maintain our naval defenses if the British fleet now [illegible] against Hitler is turned against us.

It is irresponsible and misleading to divert the attention of the American people from this, the most vital matter in their history, by pretending [illegible] it is going to war. The Clan Agrees That Olina Was the Carrier of Tales to Veritzen

"WELL! for crying into my bowl of suds" Dicky ejaculated as I said that after all Phil Veritzen had found out what I was doing for Mary "Don't tell me you're nursing an inferiority complex or what have you after that You put over your scheme didn't you?"

"So did that" Mary chimed in "Bless her for being the duckiest and cleverest aunt that a poor girl ever had"

Noel spoke for the first time since we had entered the room except for joining in the song when we danced around Mary

"What gets me" he said "is how my father found out about what you were doing if he failed in the dictaphone stunt"

"Will somebody take my darling out and tell him the facts of life" Mary demanded laughing but with a touch of acerbity in her tone "I don't dast for he wouldn't believe me but somebody ought to"

"The answer to that is very plain Noel" Lillian said in kindly fashion and I knew that she was reveling in her task "Olina played the role of the cullud gentleman in the woodpile and played it to perfection"

"Olina!" Noel ejaculated in [illegible] "[illegible] body ever confided in her [illegible]" As full realization struck his evident bewilderment "But how could she know anything about him" he turned to his wife patently horrified "Mary! You can't possibly think that I—that I—"

Fancy Job of Snooping

"Spilled any beans to her?" his young wife finished for him "No ducky you're absolved on that count as are all the rest of us Olina didn't get the dope from any one of us confiding anything to her"

"Then how?—" Noel paused and shook his head as if to clear away cobwebs

"Very simple dumb boy!" Lillian drawled "Olina's simply been doing a tall and fancy job of snooping that would do credit to Katie And she's a [illegible]ness of the blood I hope her mother takes a shingle to her I'd gladly stand by and supply Olga with fresh ones as she wears 'em out"

Even Noel snorted as he evidently was at the revelation joined in our uproarious laughter at Lillian's sally But Mary's laughter subsided first and I saw by her eyes that she had a question yet unanswered

"Look here everybody" she said "What do you really think? Did my dear papa-in-law really plan to put me through a course of sprouts as he outlined just now and plan all the time to give me the prize if I came through? And did he fathom Aunt Madge's plan as he said he did from the beginning Or did Olina's snooping give him the low down and did he plan that show just to save his face?"

"That's what I want to know too" her young husband chimed in "It means a lot to me" he added and we all knew he was thinking of his future relations with his father

"Did you ever hear you two" Harry Underwood said "of a proverb concerning the undesirability of looking a gift horse in the mouth? You've got everything you want Mary and old Phil can't go back on you now Just take the goods the gods—or rather the god—has provided and let it go at that"

But Lillian voiced an amendment

"I'd give your father the benefit of the doubt Noel" she said "I'll admit the whole thing looks a bit fishy but on the other hand I've known Phil Veritzen a long time and everything he said about the regime he imposed on his stars was absolutely true This stunt he pulled with Mary is perfectly plausible so why not believe his story? I for one am going to and I advise you to"

"When Peter Pan came down to the footlights and asked everybody to believe in fairies Lil was always the first one to yell 'Yes I do' and all the rest of it" Lillian's husband declared with an affectionate grin at her "But—her advice is sound at that and you'd better take it"

Mother and dad discuss "the old homestead"

Dad "Where are the children Mary? All out again tonight?"

Mother "Yes John Jim went to the theater with Alice and the two girls went to their club meeting over at the Smith's"

Dad "Who's Alice—is Jim bringing her home?"

Mother "She's the girl next door No I don't think Jim'll be back 'til late He didn't say"

Dad "Huh! Those kids of ours are always off somewhere. Why doesn't the girls' club ever meet here? I never saw them Did you?"

Mother "Sue had two of the girls in one afternoon—they were very nice, but they didn't stay long"

Dad "Funny—maybe this place isn't good enough for them"

Mother "Well John—it isn't that—but it is a little run down and old-fashioned"

Dad "Maybe, but, it would cost plenty to fix it up to suit the tastes of those 'jitterbugs'"

Mother "Now, John it wouldn't either All we need is a little paint—some new furniture—and a few repairs. Oh, the children would love it! And then I bet they'd be home more and bring their friends in, too"

Dad "How do you know it wouldn't cost much, Mary?"

Mother "Well I've been watching the newspaper every day and there are just loads of sales advertised—everything from hardware to furniture. And John, I noticed plenty of service ads, too—people who paint, fix up floors, do carpentry work and what not. We could at least get an estimate, couldn't we?"

Dad "Let's see that newspaper, Mary If it'll make you and the kids happy, I'm for it"

If your home is getting that "gone to seed" look start checking the ads in this newspaper every day Our advertisers are constantly offering helpful services and quality merchandise at modest cost. Start fixing up your home now so that you and your children can enjoy it more.

"These [illegible] grabbers running the government now," Representative Bender of Ohio commented, and Representative Bradley of Michigan asked: "Have you forgotten that they haven't paid for what we sold them in the last war?"

In an unscheduled appearance before the committee, Col. Robert R. McCormick, publisher of the Chicago Tribune, described the President's proposal for compulsory national service as "un-American and nothing less."

"It would be a tragic blunder," he said, "to call away from their occupations millions of civilians whom we can not clothe for months or arm for years."

Later the committee separated into individual groups to work out various phases of the platform.

Swelling the already imposing array of high powered planes at Marion Municipal airport, an [illegible] fast single seater with a [illegible] champion at the controls [illegible] today to await the [illegible] show at the port this Sunday.

[illegible] in the field [illegible] announced by [illegible] sponsors, the Aviation Boosters club and Junior Chamber of Commerce, is Joseph "Buddy" Batzel of Trenton, N. J., runner-up in the 1940 national stunting championships at Miami, Fla., and holder of a world record for long distance [illegible] jumping.

Batzel is scheduled to put his [illegible] through intricate [illegible] billowing [illegible] marking his aerial trail. [illegible] the program he will step [illegible] so that [illegible] be almost [illegible] plunge 10,000 feet toward [illegible] before opening his para[illegible] 1,000 feet above [illegible].

Harold "Dick" Dickerson of [illegible], president of the Boosters, [illegible] announced the [illegible] entries for the spot landing contest which will start [illegible] Sunday as a preliminary to the main show at 2:30. Amateur pilots from Marion and nearby [illegible] entered are A. J. Sansone, [illegible] Davis, D. J. Sarsotta of Marion, Henry M[illegible] of [illegible], H[illegible] of Mansfield, [illegible] C. Grindell, J. Richwood and Ga[illegible] Kurtz of Mansfield.

The [illegible] must climb to 1,000 [illegible] then make [illegible] landing. The [illegible] the ground nearest to a designated [illegible] will win. A trophy will go [illegible] to the next [illegible].

Interest in the air show [illegible] heightened yesterday when Harold Johnson of Chicago [illegible] into Marion in his roaring [illegible] plane in which he will dive at 400 miles [illegible] Sunday. Scores of people were [illegible] from homes and offices by the noise of the ship.

Johnson flew in from Gallipolis in 50 minutes, stopping off at Columbus for a [illegible]. He has [illegible] in the ship averaging 360 miles an hour.

Vote Registration Starts

Even though the presidential election is more than 135 days away, Marionites are already beginning to display interest by registering [illegible] the board of elections office.

An [illegible] of four [illegible] a day come in [illegible]. The registration [illegible] has been [illegible] since [illegible] May [illegible] until Oct. 7. If [illegible] you can't vote on November 5.

Present Rules

Some people apparently are still under the impression that voters are required to re-register in every presidential [illegible] official said. This [illegible] the [illegible] the regulations are different.

If you have voted in any election in the last two years you will not need to [illegible].

Persons who must register are:

Those who have just reached [illegible] 21 or who will be 21 by Nov. 5.

Those who have not voted in an election in the last two years.

Those who have changed their names through marriage, divorce or other action.

Those who are of age but who have never voted or registered before in Marion.

Some Must Transfer

In addition persons who have changed their residences must file notices of transfer of residence.

Whether Marion county will equal its record-breaking vote of the 1936 presidential election is a matter of conjecture. In 1936 a total of 21,604 persons voted. In the 1932 presidential election the total was 19,[illegible]8.

POLICE HUNT MAN IN LABOR PROBE

Another Expected To Surrender To Face Indictment.

By The Associated Press

CLEVELAND, June 20—Police today sought one of three men indicted in Cleveland's continuing investigation of labor racketeering and expected a second to surrender himself for arraignment.

Authorities have not yet located Vincent Dylinski, police figure ordered arrested following an indictment for unlawful possession of explosives and bombing the Old Zone laundry here in 1933.

Albert Ruddy, president of the carpenters district council and a labor leader 25 years, was expected to surrender, but officers said a capias for his arrest might be issued if he failed to appear today. Ruddy is jointly accused in the laundry bombing and of unlawfully possessing explosives and also is charged with obtaining shakedown payments from building contractors.

The other man indicted, Harry Barrington, former business agent for a local body of the A. F. L. carpenters union, has been held here for testimony before the grand jury which returned the true bills yesterday.

Barrington and Ruddy together were accused of obtaining more than $8,000 in shakedowns. Sentenced to Ohio penitentiary after pleading guilty in 1937 to five extortion counts, Barrington was returned here from the [illegible] for the probe.

"THREW AWAY MY BOX OF SODA AFTER I STARTED ON VENDOL"

Akron, Ohio Resident Had No Signs of Sour Gases, Upset Stomach After Getting Gratifying Relief from Constipation

It used to be a case of 'run for the soda' after most every meal, but after taking Vendol a short time I threw away my box of soda, says Mrs. Ralph Erra, Western Union Company Telegraph operator.

"Most everything I ate turned sour, upset my stomach and I'd suffer from acid risings, lump in my throat, 'heartburn,' palpitation, shortness of breath, awful cramps, and a nervous jittery feeling in my stomach. This condition was associated with constipation which also kept me from getting restful sleep so that most every morning I'd get up feeling about as tired as the night before, with achy back and legs.

"I heard so much praise for Vendol that I began taking it a few weeks ago, and it gave marvelous relief from my constipation and helped to neutralize the excess stomach acids so now I feel fine all the time and advise everyone suf-

VERMONT SENATOR DIES IN WASHINGTON

Ernest Willard Gibson Passes Away at Age of 67.

By The Associated Press

WASHINGTON, June 20—Senator Ernest Willard Gibson of Vermont died today at the age of 67. A lawyer who had served in congress for 16 years, he had been ill of a heart ailment for more than a week.

Senator Gibson had served all his years in congress as a Republican although, as he liked to relate to friends, he once was [illegible] out of the party in Vermont. The reason for that action, he said, was his vote to override President Coolidge's veto of the soldiers bonus bill.

Gibson entered congress first in 1924 as a member of the house. In 1933 he went to the senate.

He served in 1916 as a captain of infantry on the Mexican border and during the World war he was abroad for two years.

Surviving are two sons, Ernest W. Jr., secretary of the Vermont [illegible] senate, and Preston, and a daughter, Doris, who had been his hostess in Washington. His wife died in 1935.

BASES FOR U. S. FORCES NEEDED

Naval Stations and Air Fields To Be Proposed at Pan-American Conference

By The Associated Press

WASHINGTON June 20 — Establishment of [illegible] American bases for the United States navy, a usually well informed source said today, may be one of the subjects raised at the projected Pan American conference on hemisphere problems of military and economic defense.

Both aircraft and fleet bases would be included in any such discussion, this official said.

Under Secretary of State Sumner Welles announced yesterday that the government had communicated with all 21 American Republics suggesting that an extraordinary conference be held immediately to consider all problems confronting the hemisphere as a result of the turn of events abroad.

The conference proposal was made known after Secretary Hull disclosed that notes had been sent Monday to Germany and Italy saying that the United States would not countenance any transfer of the British, French or Dutch possessions in the new world to a non American country.

Still in Discussion Stage

The matter of navy bases in Latin American nations, it was emphasized, still is in the discussion stage. The subject arose indirectly in testimony given a congressional committee by Capt P A Feringa, assistant chief of the rivers and harbors section of the army engineers. He said the navy wanted two special type dredges for operation with the fleet.

These dredges, he explained, "are essential to the fleet in case they have operations in South America, where some harbors are obstructed by sand bars."

In the sphere of strictly national defense it was uncertain whether the new $4 000 000 000 fleet expansion bill would get immediate house consideration. The rules committee gave it right of way to the floor with debate limited to two hours, but later Democratic Leader Rayburn of Texas said it might not come up for some time.

Boat Sale Criticized

Two naval matters which evoked some congressional criticism were the release of 20 torpedo boats to Britain and the alleged intention to guarantee a 10 per cent profit to shipbuilders on $1 000 000 000 of pending warship construction contracts.

Chairman Walsh (D Mass) of the senate naval committee called release of the torpedo boats a serious wrong, and said "if war should come in the next few months no one can estimate the consequence that may follow as a result of the disposal of these vessels."

Walsh also criticized the navy on the profit guarantee, which he said Rear Admiral S M Robinson, chief of the engineering bureau, had acknowledged during a closed committee hearing. The present law limits profit on navy ship contracts to 10 per cent, but Walsh said this was a maximum and could not be considered a guarantee.

Nevertheless, pending legislation to cut ship and plane building profits to 7 per cent was reported to have led members of the national defense commission to say that such a reduction might retard production. The plane profit allowance is now 12 per cent.

COOL THINKING NEEDED, GENERAL TELLS VETERANS

By The Associated Press

AKRON O June 20—Cool factual analysis must prevail over enthusiastic emotional outbursts for an orderly planning of American defense, says Gen George C Marshall U S army chief of staff.

His appeal for common sense in defense preparations was before the Ohio Veterans of Foreign Wars today as they opened business sessions of their 20th annual encampment at which defense and subversive activities will be considered.

Describing America's present position as probably the most critical in its history, Marshall asserted:

"The great problem * * * is how to progress in a sound and orderly fashion in the light of world conditions.

"Our people must realize that the flag-waving days of warfare are gone.

"The war department knows what is needed. The American people know they want preparedness. The time for endless debate and minor differences of opinion is past. We must get down to hardpan and carry out our preparations without vacillations or confusion."

The petition, filed with the house clerk, was presented by Mrs Josephine Mohler of Cincinnati, official of the Mothers of Sons forum.

CROP LOAN FUND BOOSTED

By The Associated Press

WASHINGTON June 20—The house rules committee has granted right-of-way to the Steagall bill to increase from $900 000 000 to $1 400,000 000 credit resources of the Commodity Credit corporation. The measure is designed to take care of loans for the coming crop year.

MARION CHILD INJURED WHEN STRUCK BY CAR

Three year-old William Phelps, son of Mr and Mrs Paul Phelps of 215 [illegible] street, was injured when struck by an automobile near his home last night about 7 according to a police report.

He was hit by an automobile driven by Robert Casner, 21, of 701 South Prospect street, officers reported. The accident occurred when the youngster, who had been with his father on the south sidewalk, ran across the street in front of the car, police said.

The child suffered a severe bruise on the back of the head and lacerations on the forehead. He was taken to a physician's office by the driver and Mr Phelps and was released after being treated.

CANTON O June 20—U S Rep James Seccombe of Canton today was named defendant in a $100 000 alienation of affections suit filed in common pleas court here by Frank Webber, Doylestown school custodian.

Seccombe, former mayor of Canton and now serving his first term as representative from the Fifteenth congressional district, is charged with "immoral, adulterous and cunningly seductive acts" with Mr Webber's 38 year old wife, Lela Webber.

Reached by telephone at his Washington office, Rep Seccombe said he knew nothing whatsoever about the suit. Declining to make a formal statement until the charges had been communicated to him officially, Rep Seccombe said he considered the action "just another attempt to smear me politically."

"It must be remembered," he said, "that this is an election year and I am a candidate."

The petition, filed by H H Emmons, quotes an unsigned letter written in longhand and purporting to have come from the congressman, which the plaintiff claims he intercepted by mere accident. This letter describes the writer's affection for the recipient.

The alleged association of Rep Seccombe and his wife, the plaintiff sets forth, has continued over a period of two years, during which time he claims the defendant promised Mrs Webber three different jobs in public offices which she never received.

REPORT U. S. TO AID MEXICO'S REARMING

Use of Technical Experts and Credits Proposed

By The Associated Press

MEXICO CITY June 20 — A high source declared today President Lazaro Cardenas had approved a program which would more than quadruple Mexico's armed forces with the aid of the United States.

This source asserted that within a few weeks a credit of more than $10 000 000 from the United States would be made available to the Mexican government to carry out this expansion under 60 technical experts from the United States army and navy.

Additional millions would be allocated later by the Mexican finance ministry, it was reported.

The United States government was said to be determined that Mexico should not be used as an avenue of invasion by any aggressor power, and it was understood the American credits would be made available on generous terms.

REPORT FRANCE GRANTS JAPANESE DEMANDS

By The Associated Press

TOKYO June 20—France had acceded entirely to Japan's demands for the halting of transportation of war supplies through French Indo China to China and had agreed to permit Japanese inspectors to enter Indo China to make sure that the traffic ends, the foreign office announced today.

French Ambassador Charles Arsene Henry told vice foreign minister Masayuki Tani that for many months nothing but trucks of petroleum had been passing into China by way of Indo-China and since July 17 these also had been banned.

France's acceptance of Japan's demands was announced after the Tokyo press had adopted a sharper tone in the French Indo China situation. The newspaper Asahi raised the question of Japanese control of important points.

SENATE VOTES STIFF WAR PROFITS LEVIES

Administration Pleas Ignored on Tax Measure

By The Associated Press

WASHINGTON June 20—A defiant senate ignored administration pleas [illegible] controversial [illegible] bill last night and approved [illegible] tax legislation only after [illegible] stringent levies on those who would profit from war.

The chamber agreed to the lower income tax exemptions and most of the excise tax boosts which the house voted in an effort to raise an extra $1 007 000 000 a year. Then the senate added:

1 An immediate excess profits tax on all corporations to produce between $300 000 000 and $500 000 000 annually.

2 War profits taxes which Senator Connally (D Tex), the sponsor, estimated would raise about $8 000 000 000 a year from individuals and possibly a like amount from corporations. The levy would go into effect only upon a congressional declaration of war.

This amendment, Connally said, "milks the old cow down to the point of exhaustion but it doesn't quite put her out of business."

The legislation now goes to a joint senate house committee, and many lawmakers predicted it will throw out the senate provisions.

LaFollette Argument Wins

Senator LaFollette (Prog Wis) argued that the country would regard as "pure sham" any revenue bill which increased income taxes on individuals and made no provision for draining off excess profits from industries which profit from the European war.

LaFollette won 41 to 31 despite arguments by administration lieutenants that excess profits legislation should await a thorough study by congressional committees. Chairman Harrison (D Miss) of the finance committee promised that such a study would be made within 30 days after the pending measure was enacted.

The vote on LaFollette's proposal took much of the fight out of administration forces and many of them voted for Connally's amendment, which carried 51 to 28.

The final 75 to 5 vote approving the tax bill came at 10 30 p m after weary senators had [illegible] off many speeches with loud cries of "vote! vote!"

Taft Is Opposed

Senators opposing the measure were Austin of Vermont, Gurney of South Dakota, Hale of Maine and Taft of Ohio, Republicans, and Lundeen of Minnesota, Farmer Laborite.

The senate changes in the tax measure threw a new obstacle in the way of leaders seeking to have congress recess Saturday until Aug 1. They hoped to win complete action on the tax bill before the recess, and leaders were still hopeful despite the necessity for adjusting differences with the house.

Several senators made new demands yesterday that congress remain continuously in session. Senator Ashurst (D Ariz) disagreed with Democratic Leader Barkley's contention that "it would be wholesome if we could get back to our people—go to church, go to the lodges, go to the women and find out what they are thinking."

Ashurst said he knew what the people were thinking without going home to "stand in the drugstore corner."

Many New Taxpayers

The tax bill approved after three days of senate debate would create 2 190 000 new taxpayers by reducing present income exemptions from $2 500 to $2 000 for married persons and from $1 000 to $800 for single persons.

It would add 1 per cent to existing corporation taxes, increase all individual income tax payments by a flat 10 per cent, boost surtaxes on incomes between $6 000 and $100 000, and increase such so called nuisance taxes as those on gasoline, liquor, beer, amusements, radios and mechanical refrigerators.

The federal debt limit would be raised from $45 000 000 000 to $49 000 000 000 and a special $4 000 000 000 issue of defense bonds would be paid off with revenue from the new taxes over a five year period.

The senate eliminated a house approved increase in tobacco taxes, including a penny-a package boost on cigarets. It inserted a new schedule of amusement taxes imposing a 10 per cent levy on all admissions costing 10 cents or more. The house bill would have started the tax at 30 cents. Under present law, the tax begins at 40 cents.

The senate, reversing itself, removed from the bill a proposal authorizing the president to cut non defense expenditures by 10 per cent.

LEGISLATURE

(Continued from Page One)

[illegible] The first bill to be acted on by the senate was one raising the maximum annual benefits for blind persons from $360 to $480.

Action Completed

Action already had been completed on the following bills:

To increase the maximum old age pension grants from $30 a month to $40.

Appropriating $1 480 000 for relief grants to the local governments and making available an additional $333 333 for loans.

Separating the presidential and vice presidential candidates from the state ticket on the November ballot.

Appropriating $2 000 000 (half of it federal funds) to finance the addition of at least 11 500 persons to the old age pension rolls.

Authorizing local governmental units to fund relief deficits incurred before Jan 1 1940, and

Releasing $800 000 in federal funds now frozen in the state treasury for aid to dependent children.

The bill increasing the maximum pension grants caused bitter debate before passing in the house.

Funds Available Next Year

Administration leaders admitted money was not available for increasing the pensions this year but insisted it would be in 1941.

Rep George Harter (D Summit) declared that the bill was "the grossest deception and turned Governor Bricker's promise to the pensioner [into] the shame of the Republican party."

The Republicans tabled an amendment by Rep Wilford Bixler (D Summit) to appropriate $2 000 000 for the pension increase.

Democrats assailed enactment of the ballot separation bill as an emergency which makes it effective immediately and not subject to referendum.

Asked "what is the emergency?" Republican Warner replied: "Any time you have Martin L Davey on the loose (Democratic) for governor and Jumpy (George D) Nye for attorney general there is a real emergency."

The Republicans separated the ballot to prevent popularity of President Roosevelt from helping the Democratic state candidates should he seek reelection.

PETAIN EXPLAINS WHY HE ASKED ARMISTICE

Indicates Inferior Manpower Made Victory Unlikely.

By The Associated Press

BORDEAUX France June 20—Premier [illegible] declaring that the French [illegible] did not deny defeat when it stares them in the face, told his countrymen that he sought an armistice because of inferior material and lack of manpower.

In [illegible] his decision, the old marshal of the World war declared in a radio broadcast to the nation that the military situation [illegible] justified it [illegible] the line of the Somme and the Aisne.

"General (Maxime) Weygand reorganized our armies. His name alone presaged victory.

"However the line gave way and the pressure of the enemy forced our troops to retreat.

"On June 13 I asked for an armistice."

Contrasting the [illegible] with [illegible], Petain said that at the beginning of the present battle France had [illegible] 00 000 [illegible] than [illegible] 80 000 he had after the [illegible] of fighting in the World war.

"In May 1918," he went on, "we had 85 British divisions; in May 1940 we had 10.

"In 1918 we had 58 Italian divisions and 42 American divisions with us."

Here the old marshal paused and then pointed out that Italy was fighting on the side of Germany and that America was neutral.

"The inferiority of our material," he said, "was even greater than that of our manpower. French aviation had been fighting its battle one against six.

"Every people," he added sadly, "must know days of success and days of defeat. Then he [illegible].

"Today France is [illegible] I was with you in our days of glory. I am and [illegible] remain with you in your days of sadness.

"The French," he said, "[illegible] deny defeat when it stares them in the face. All peoples have known successes and [illegible]. It is by their reaction [illegible] that they show themselves weak or great. We will learn our lesson from the lost battle.

"Since our victory (in the World war) a sense of enjoyment has predominated over the one of sacrifice. We have sought more than we have given. We have not exerted the [illegible] effort. Today we are in distress."

Saturday night shoppers from the surrounding areas, it was expected that by Sunday well over 100 letters would have gone out from this central Ohio community.

The women are taking turns staying at the church where they provide stationery, pen and ink and stamps. They have prepared no letters which writers may follow if they wish, but so far the feeling has been strong enough that writers were not at a loss to put their sentiments in their own words, the spokesman said. The women have made one rule regarding the letters. They must be written by the sender and must be in longhand.

Word Spread Verbally

A few writers have sent their letters to the U S department of foreign relations.

There is no house to house canvassing being done to get the residents to write the letters, the spokesman said, but the women and some men in the community who have become interested in spreading word of the movement are making it known verbally wherever they go, that the community has the opportunity to let the government know how Ashley feels about mixing in Europe's war and preparing this country's defenses.

Full Occupation of France Seems To Be Nazi Aim

By DEWITT MACKENZIE

Hitler's seeming slowness in dealing with France's request for armistice terms has permitted the Nazi army to continue smashing the exhausted French forces and overrunning all further important territories.

Fascist circles in Rome rather let the cat out of the bag this morning when they said that the [illegible] complete occupation of France by the German and Italian armies was probable before the French were handed the axis terms. That would leave the [illegible] on the unhappy French government.

The reason for this move needn't be sought far. Indeed the German radio today [illegible] summed the thing up very neatly in a broadcast picked up in London. This stated that [illegible] members of the French government [illegible] the question of laying down arms.

French Divided

That there is some division is equally probable. [illegible] French people are against surrender. They would prefer to fight it out. The [illegible] wouldn't be surprised if some French elements [illegible] continue the struggle in cooperation with the British no matter what the French government may feel forced to do.

The German operations seem to me to indicate that they are straining every nerve to race down the valley of the Rhone and make junction with the Italian forces somewhere in the Marseilles sector on the Mediterranean. This would [illegible] give them control of the most important part of the country.

While [illegible] has been going forward the Berlin press has started to turn the attention of the public [illegible] with the cry England next. In fact the [illegible] already [illegible] stages.

Bombers Range Far

The Germans last night conducted their [illegible] widespread air raids [illegible] attempted over the [illegible] bombing England, Scotland and Wales.

The big feature of this raid lies in the fact that it demonstrates the ability of the German to reach most parts of the country from their new air bases across the English channel and North sea.

A terrific assault on Britain by air seems imminent. Last night's venture was a feeler to help the Nazis get set for the grim business ahead. Hitler's logical procedure will be to try to bomb England into virtual submission before he attempts the hazardous adventure of invading the country with troops.

Small wonder with the European crisis in its present state that the Americans should be taking precautions for their own interests.

FRENCH

had delivered a new battle on the middle Loire river before withdrawing to a more favorable line.

French armies from the Maginot line were trapped retreating [illegible] in Lorraine before the advancing German columns.

The German motorized cavalry which occupied [illegible] was in position to link the French Alpine army and join hands with Italians around Switzerland.

England Is Next

In Germany the watchword was England is next. The Berlin press sounded warnings to Britain in comments on British air attacks on western Germany.

Voelkischer Beobachter, Hitler's newspaper, [illegible] discussing British plans for local defense volunteers, declared [illegible] apparently was being organized and that Germany uses "brutal hardness in dealing with snipers."

From Bucharest came Rumanian government reports that Soviet Russia was moving troops from the Bessarabian frontier to the German Russian border and that Germany was sending motorized forces to East Prussia, opposite the Baltic states which Russian troops have occupied. There was no immediate comment from Berlin or Moscow.

In the Far East Japan settled with Britain and France a long controversy over the north China city of Tientsin. Orders were given to lift the military blockade of the British and French concessions there following an agreement over policing of the city and financial matters including Chinese silver deposited in banks in the concessions.

ITALY AIMS DRIVE AT SAVOY REGIO

Plan To Occupy Area as A mistice Is Awaited

By The Associated Press

ROME June 20—Italian plan to occupy the Savoy [illegible] of France while awaiting the outcome of armistice parleys [illegible] France and Adolf Hitler [illegible] sources indicated today.

Savoy is one of the [illegible] Italy has demanded from [illegible] along with the city of Nice, island of Corsica and Tunisia in Africa.

The military expert of the newspaper Il Tribuna said Italian action in Savoy would be joined to that of the German army along a line through St Didier and Clermont which would bring the Germans to the edge of Savoy.

Italy's air power was [illegible] today into operations over a zone in the Mediterranean far down the eastern coast of Africa as Stefani official news agency declared Saturday at the latest there [illegible] be no more fighting between axis powers and battered France.

The Italian high command declared its widespread air raids had caused great damage [illegible] points and had destroyed 2 tanks in a fight on the [illegible] between Egypt and Libya.

Italians said they bombed such points as the Mediterranean possession of [illegible] and the previously French naval base at Bizerte, Tunis.

Acknowledging that her territory had been bombed on the Ligurian coast and in Sicily, the Italians reported they bombed British bases at Zeila across the gulf of [illegible] British Somaliland, Port [illegible] on the African coast of the [illegible] Sea and other points in Kenya.

Italian newspapers published without comment dispatches from Washington announcing the United States had sent [illegible] Italy and Germany warning she would not stand for the annexation of any British or [illegible] territory in the western hemisphere.

CHICAGO June 20—Col Frank Knox [illegible] today was nominated for secretary of the navy has been a [illegible] protagonist [illegible] a strong national defense and of protection of the entire western hemisphere from European influence.

His editorials in the Chicago Daily News throughout the war have called for American assistance in the form of materials and supplies to the Allies. Yesterday he urged editorially that the United States serve as trustee [illegible] western world [illegible] take over French possessions in the Americas and set up a government for them including representatives of three or five American nations.

"Our danger is a common danger and our defense must be a mutual defense," the editorial declared. "In what better way could be begun this new mode of thought than meeting the first tangible danger by common action?"

Several months before the start of the European war Colonel Knox made a personal trip through the Caribbean and about South America and returned to advocate strengthening of American defenses in the Caribbean and the Panama Canal zone.

Author of Star's Next Serial Story Finds Theme in Life at Army Posts

The Star's next serial story "Casual Slaughters," a swiftly paced mystery-romance starting June 25, is the second story Virginia Hanson has written featuring Kay Cornish and Adam Drew and set against an army post background.

The attractive young author writes about the army because that is the subject she knows and likes best, coming as she does from a long line of army people. Her father is a retired colonel in the United States army and her brother a retired army officer. Her grandfather [illegible] Hungarian [illegible] an officer of [illegible] Hungarian legion and eventually became an officer in the United States army during the Civil [illegible] American [illegible]

Miss Hanson's [illegible] memories [illegible] in army posts in the United States [illegible] Chicago, a graduate of the University of Wisconsin, she now [illegible] Monmouth. She likes [illegible] music and [illegible] relaxation [illegible] She [illegible] writes from [illegible] 1000 words a day. She likes to read the mystery stories of other writers and occasionally sees a mystery movie.

Ambitious? Well, she wouldn't mind helping Hollywood film a mystery story. She thinks the movie moguls usually kid all the mystery out of their thrillers trying to be funny. She thinks it possible to stress both mystery and humor providing double-barreled entertainment.

That—as a matter of fact—is what she had neatly accomplished in "Casual Slaughters," throwing in a haunting love interest for good measure.
